

Amendments to the Drawings

The attached drawing includes changes to Figure 1A. This sheet replaces the original sheet in the specification. The reference to the figure as being Figure 1A has been added.

Attachment: Replacement sheet
Annotated Sheet Showing Changes

REMARKS

Prior to the initial examination of the present application, Applicants wish to have this amendment entered. While adding no new subject matter to the application, Applicants have revised the Specification to meet standard U.S. formatting requirements and converted the European style of multiple dependent claims to the U.S. format of single dependency.

Given the above amendments to the claims and the comments herein, Applicants respectfully request notice of allowance of all pending claims at the earliest convenience. However, should the Examiner envision further rejection or comment, he is invited to telephone the undersigned.

Respectfully submitted,

Linda K. Russell, Reg. No. 34,918

Abstract of the Disclosure

A fuel cell pack and a power producing device based upon a fuel cell. The fuel cell is made up of a series of elementary cells and a fluid distribution system which makes it possible to feed each cell with two different fluids and to remove the fluids from the cells. The fuel cell pack is provided with a first valve system which interacts with a second valve system present in the power producing device.
